Chapter: 4 Category: poverty   Date: October 6, 2021

Topic Main Facts/ Ideas /Characteristics
Poverty is an economic state in which a family/ person lacks the financial support in order to meet basic needs.

Challenges/Strengths and Contributions of Learners
Challenges: - Make harder for students to get a proper and good education - Can't go to college? - Might need to work for money instead of attend school - Might lack resources and support needed for learning Strengths: - Public school - Loans - free/reduced lunches

Strategies for teaching the learner / Learning environment needed to be successful
Build relationships Communicate with families See if there is anything you can help the student with Provide strong emotional support Set high expectations

Reflection:
  ● How has your perception of diverse learners grown/changed from your perspective as a student?

I did not realize how hard it would be for students raised in low income areas/families it is for them to get an education and how much money really affects how students perform in school and their motivation to even attend school

  ● What does this mean for you as a future teacher?

This means that I will be willing to help students with school supplies and food if they cant afford it will also offer a safe space and someone to talk to if they choose to

  ● How does this relate to Teacher Quality Standard II?

Element B: Teachers demonstrate a commitment to and respect for diversity, while working toward common goals as a community and as a country.
